WHAT THIS COURSE DELIVERS

The UEE42611 Certificate IV in Hazardous Areas – Electrical is made up of 23 core units and a range of elective units of competency. In order to attain this qualification, some of the units are credit transferred from a student's electrical trade training and some are credit transferred from the Installation and Maintenance of Electrical Equipment in Hazardous Areas course. Competency Training offers the four remaining core units via Recognition of Prior Learning (RPL).

On enrolment, students are provided with a RPL kit. The kit contains questions and recommended documents for submission to provide the assessor with sufficient evidence to determine whether the student is competent in these units. Upon successful completion of the RPL assessment, a student will be awarded the qualification.

PREREQUISITES

An Electrical Licence and evidence of training in the Installation and Maintenance of Electrical Equipment in Hazardous Areas is required prior to enrolling in the Certificate IV in Hazardous Areas - Electrical.

Please contact us for more information or to discuss your eligibility.
