

# CONDUCT A CONFORMITY ASSESSMENT

## WHAT THIS COVERS

This assessment only pathway covers the production of certification documentation of explosion-protected equipment. This competency is required when a certificate of conformity does not exist and the production of a conformity assessment document is required. This assessment requires:

- Skills and knowledge to examine and compare document content
- Compare requirements of IEC or AS/NZ Standards with alternative Standards on which the original certification was based
- Knowledge of explosion-protection techniques
- Technical report writing

## WHO IS THIS FOR

This is designed for electrical workers who already hold the knowledge around Conformity Assessment Documentation and would like to obtain competencies.

## PREREQUISITES

Students must be able to demonstrate competency in compliance assessment of electrical / electronic equipment and general technical evaluation and report writing. Students that have completed the Classification & Design course will meet the prerequisites.

Please contact us to check if you meet the prerequisite requirements for this assessment only pathway.

## RECOGNITION OF PRIOR LEARNING (RPL)

This assessment is completed via RPL. Students will carry out the appropriate steps to provide evidence of the completion of a Conformity Assessment of Explosion Protected Equipment for gas and dust atmospheres.

The RPL Kit will contain questions around the units of competency. As part of demonstrating their competence, students will need to include the following:

- Write 2 Conformity Assessment Documents (CAD)
- Overall photo(s) of the equipment concerned
- Legible photo(s) of nameplate(s) of the equipment concerned. Alternatively, certified nameplate drawing(s) - but only such as are listed in the certificate(s), if any
- Full copy(copies) of relevant evidence of equipment certification(s) that are traceable from the nameplate(s)

Please contact us for more information.

## CONDUCT A CONFORMITY ASSESSMENT

# UNITS OF COMPETENCY

- UEENEEM036A** Conduct a conformity assessment of explosion-protected equipment - gas atmospheres
- UEENEEM037A** Conduct a conformity assessment of explosion-protected equipment - dust atmospheres

## WHERE TO FROM HERE

Competency Training's capability to progress our graduates, from new industry entrants to mature leaders, is based on the real world expertise of specialist educators who deliver education and compliance on site, or in the classroom.

We have a unique holistic approach to training and compliance, delivered by a highly experienced multi-disciplinary team.

For further information on your education and training options, or for possible corporate or volume discount offers, please contact us.
