

# HIGH VOLTAGE AWARENESS

Delivery Method	eLearning
Prerequisites	Nil
Price	AUD 320 GST Inclusive

## WHAT THIS COURSE DELIVERS

This course provides an introduction to high voltage electrical equipment. It covers:

- An overview of the legislative requirements and Australian Standards that are relevant to high voltage installations.
- The dangers associated with high voltages when working around high voltage systems and equipment.
- Safety procedures to follow in order to ensure a safe work environment.
- Permit procedures, including high voltage isolation and access procedures and processes.

The eLearning package incorporates multimedia elements to make the course engaging for students. Assessments are presented and completed by students at different points throughout the training to ensure that learning outcomes have been met.

This course does not include any formal competencies.

## WHO SHOULD ATTEND

This course is suitable for asset owners, stores and purchasing personnel, engineers, cleaning staff, HSE staff, trade personnel and management who require an awareness of their responsibilities when working with high voltage electrical equipment.

## PREREQUISITES

This course is an awareness course only and has no prerequisites. A Statement of Completion is issued on successful course completion.

## YOUR OPTIONS

### High Voltage Awareness - 1 Day

If you prefer, High Voltage Awareness can be delivered as an instructor-led training course. The course material can be tailored to specifically address the intricacies of your facility.

This is a 1 day course delivered at client facility or at a Competency Training centre.

Please contact us for more information and pricing on this option.

## WHERE TO FROM HERE

Competency Training's capability to progress our graduates, from new industry entrants to mature leaders, is based on the real world expertise of specialist educators who deliver education and compliance on site, or in the classroom.

We have a unique holistic approach to training and compliance, delivered by a highly experienced multi-disciplinary team.

For further information on your education and training options, or for possible corporate or volume discount offers, please contact us.
