WHAT THIS COURSE DELIVERS
This course provides detailed training in how to safely perform the duties of a High Voltage Switching Operator, and covers the following topics:

• Legislation and Standards
• Risk management and control
• Approach to high voltage – safe systems of work, permit types and permit procedures
• Writing and checking switching programs
• Performing switching to a switching program

Students are able to simulate remote high voltage operations using our customised interactive network diagrams as well as performing practical high and low voltage switching activities in our purpose-built switching training facilities.

WHO SHOULD ATTEND
This course is designed for electrical workers and engineers working with high and low voltage switchgear in industrial facilities and networks.

In accordance with the industry guidelines that High Voltage Switching Operators maintain currency in units of switching, Competency Training recommends that this high voltage training course is refreshed every 2-3 years.

PREREQUISITES
An Electrical Licence is required in order for a course participant to be issued with a Statement of Attainment for all units of competency.

Students who do not have an Electrical Licence are eligible for a Statement of Attainment for the units from the Electricity Supply Industry - Generation Sector Training Package.

Please contact us for information and to confirm your eligibility.

YOUR OPTIONS
This course can be delivered at a client’s site, and practical activities can be customised to reflect the client’s own electrical equipment.

Please contact us for information and pricing on this option.
