

COURSE SNAPSHOT

INTRODUCTION TO MAINTENANCE SUPERVISION & TEAM LEADING

DURATION 2 days

PREREQUISITES Maintenance Management Fundamentals course

COURSE OVERVIEW

Effective Supervision is mostly about leadership. This course describes the many different leadership styles and how they can be used to motivate your team.

Specific exercises address effective communication with team members, both when assigning tasks and when giving feedback.

WHO SHOULD ATTEND

This course is designed for Maintenance or Shutdown Planners, Supervisors and Team Leaders or those who desire the skills to become a Team Leader.

PREREQUISITES

Maintenance Management Fundamentals course.

YOUR OPTIONS

This course can be delivered at a client's site, and practical activities can be customised to reflect the client's own electrical equipment.
