

COURSE SNAPSHOT

HIGH VOLTAGE ISOLATION FOR ACCESS

DURATION 2 days

PREREQUISITES Nil

WHAT THIS COURSE DELIVERS

This course is intended for electrical workers who are carrying out high voltage switching operations under the direction of an approved High Voltage Switching Operator.

This course covers:

- An overview of the relevant legislation and Australian Standards
- An introduction to the hazards associated with high voltage switching
- Precautions to take when performing high voltage switching
- How to safely isolate and earth high voltage equipment for the issue of an electrical access permit for work on or near the High Voltage terminals
- Practical demonstration of switching activities

WHO SHOULD ATTEND

Electrical workers who are entering the high voltage industry, working under high voltage access permits, or assisting in the isolation of high voltage equipment for the issue of a high voltage access permit.

PREREQUISITES

There are no prerequisites for this course.

YOUR OPTIONS

This 2 day course can be delivered at a Competency Training location or at a client's site.

This course does not include writing Switching Programs or issuing High Voltage Permits. If this is required, our High Voltage Switching Operations course is recommended. If this course has already been completed, bridging training can be arranged.

Please contact us for more information and pricing.

UNITS OF COMPETENCY

UEPOPS116	Operate local H.V. switchgear
UEPOPS117	Operate local L.V. switchgear
UEPOPS124	Perform switching to a switching program
UEPOPS021	Control permit to work operations

Students are involved in a range of practical activities throughout the training, including performing practical switching activities to a given switching program in our purpose-built high voltage switching training facilities.

WHERE TO FROM HERE

Competency Training's capability to progress our graduates, from new industry entrants to mature leaders, is based on the real world expertise of specialist educators who deliver education and compliance on site, or in the classroom.

We have a unique holistic approach to training and compliance, delivered by a highly experienced multi-disciplinary team.

For further information on your education and training options, or for possible corporate or volume discount offers, please contact us.
