COURSE SNAPSHOT

INSTALLATION AND MAINTENANCE EEHA REFRESHER

DURATION	2 days
PREREQUISITES	Electrical Licence or equivalent and prior completion of equivalent hazardous areas training
PRICE	AUD 1350 GST exempt

WHAT THIS COURSE DELIVERS

The Installation and Maintenance Refresher course focuses on the practical components of the four day course, particularly on inspections and testing. It refreshes the principles of the following:

- Hazardous area classification
- Explosion-protection techniques
- Equipment installation requirements Testing
- Procedures for breakdowns and maintenance
- Visual and detailed inspections
- Updates and amendments to standards are also reviewed

WHO SHOULD ATTEND

This course is intended as a periodic refresher for electrical workers and engineers who have previously completed equivalent training.

In accordance with the AS/NZS 60079.14 requirement for continuing education, Competency Training recommends that this Hazardous Area training course is refreshed every 2-3 years.

PREREQUISITES

An Electrical Licence and evidence of prior training in the equivalent units of competency is generally required in order for a student to be issued with a Statement of Attainment for all units of competency. A Statement of Attainment can only be issued for units that a participant has previously attained. Please contact us for more information or to discuss your eligibility.

YOUR OPTIONS

On completion of this course, a Licensed Electrician will have attained a significant portion of the units required for a Certificate IV in Hazardous Areas - Electrical. Competency Training is able to offer students the remaining units via Recognition of Prior Learning (RPL).

On completion of this course, a Licensed Electrician is eligible to complete our Hazardous Areas Classification and Design Course and obtain a Statement of Attainment for all of the units.

Please contact us for more information and pricing on these options.

INTERNATIONAL STANDARDS TRAINING

This course delivers the IECEx pre-learning required for IECEx units Ex000, Ex001., Ex003, Ex004, Ex006, Ex007 and Ex008.

COURSE SNAPSHOT

INSTALLATION AND MAINTENANCE EEHA REFRESHER

UNITS OF COMPETENCY

UEEHA0004	Enter a classified hazardous area to undertake work related to electrical equipment
UEEHA0022	Determine the explosion-protection requirements to meet a specified classified hazardous area
UEEHA0038	Conduct visual and close inspection of electrical installations for hazardous areas
UEEHA0020	Conduct detailed inspection of electrical installations for hazardous areas
UEEHA0025	Install explosion-protected equipment and associated apparatus and wiring systems
UEEHA0026	Maintain equipment associated with hazardous areas
UEECD0011	Comply with scheduled and preventative maintenance program processes
UEECO0002	Maintain documentation

Students are involved in a range of practical activities throughout the training, including writing and checking switching programs, and performing remote and local High Voltage Switching activities in our purpose-built High Voltage Switching training centres.

WHERE TO FROM HERE

Competency Training's capability to progress our graduates, from new industry entrants to mature leaders, is based on the real world expertise of specialist educators who deliver education and compliance on site, or in the classroom.

We have a unique holistic approach to training and compliance, delivered by a highly experienced multi-disciplinary team.

For further information on your education and training options, or for possible corporate or volume discount offers, please contact us.
